

Eastern Brook Trout Joint Venture Coordination and Operations FY20

FWS-NFHP Funding Requested: \$82,500

Total Project Cost: \$82,500

Total Federal Matching: \$0

Total Non-Federal Matching: \$0

Applicant:

Project Officer: Nathaniel Gillespie, Steering Committee Chair
Organization: Eastern Brook Trout Joint Venture
Street: 201 14th Street, SW (Sydney R. Yates Federal Building)
City, State, Zip: Washington, DC 20250
Telephone Number: 202-205-7827
Email Address: nathaniel.gillespie@usda.gov

U.S. Fish and Wildlife Service Sponsoring Office:

Project Officer: Callie McMunigal
Fish and Wildlife Service Office: Appalachian Partnership Coordination Office
Street: 400 E Main Street
City, State, Zip: White Sulphur Springs, WV 24986
Telephone Number: (304) 536-1361 x151
Email Address: callie_mcmunigal@fws.gov

Project Description

The Eastern Brook Trout Joint Venture (EBTJV) has developed a roadmap for wild Brook Trout conservation grounded in science and guided by its mission to facilitate integrated approaches to conserving healthy coldwater aquatic resources and fishable wild Brook Trout populations. We advance our mission by completing landscape-level scientific assessments on the status of wild Brook Trout and use the results of these assessments to establish key priorities that serve as a framework for collaborating and coordinating strategic conservation actions among our conservation partners. The EBTJV also provides our partners with vital decision-support tools and data management systems that are web-based and readily accessible. Additionally we foster outreach efforts that build stewardship support for conserving wild Brook Trout and we direct resources to essential on-the-ground wild Brook Trout conservation projects. In order to continue to meet these commitments, the EBTJV will conduct the following operational activities under this project:

1. Work towards achieving the EBTJV's strategic range-wide habitat goals and objectives.
2. Liaise and collaborate with the National Fish Habitat Partnership, neighboring Fish Habitat Partnerships and other conservation entities to ensure that strategic conservation actions among this community are synchronized.
3. Solicit and rank fish habitat conservation projects that address priority wild Brook Trout conservation needs.
4. Coordinate and compile information on wild Brook Trout conservation activities and improvements in wild Brook Trout habitat condition for use in measuring progress towards conserving wild Brook Trout.
5. Promote the accomplishments being achieved in conserving wild Brook Trout to targeted audiences.
6. Conduct routine EBTJV business functions, including convening meetings, workshops, and/or, webinars.

FY20 Project Budget

Budget Category	Budget Request
Contractual	\$65,000
Travel	\$ 5,000
EBTJV Web Portal IT Support and Maintenance	\$ 5,000
Indirect	\$ 7,500
Total	\$82,500
